

# Awe Peter

## Software Developer

Lagos, Nigeria.

### Profile

Highly innovative and competent software developer with experience and proven knowledge of front-end and back-end. Seeking for opportunity to utilize my skills to successfully fill the software engineering role at your company.

### Work Experience

#### Software Developer @MyMedicalBank

March 2020 - Present

As a software Developer at MymedicalBank, I develop digital products in the health tech sector. My work involves developing, deployment and maintaining lifecycle of both the front-end and back-end web application. At MymedicalBank, I've:

- Collaborated with UI/UX designers in developing and deploying various features on the Web Application.
- Developed features and fixed bugs on the client-side and server-side of the company’s web application, using Vuejs, jQuery, Bootstrap, CSS, JavaScript, PHP and MYSQL.
- Facilitated the integration of Mailgun, Netlify and Zoho Salesiq. created email template and wrote server less functions to send auto response emails and store submissions for lead generation.
- Developed Payment and billing feature using Paystack's API.
- Integrated [SMS API](#) for sending OTP and Booking Notification to Customers.
- Integrated [ZOHO CRM](#) that manages Leads generation sales and marketing.
- Collaborated with other engineers in building, Homecare, Health Market and Telemedicine Booking Platform.
- Refined SEO for company blog, increasing website traffic by a significant amount.
- Participated in Sprint Demos, while making sure that all feedbacks from stakeholders are captured and resolved.

#### Freelance software Engineer.

January 2022 - Present

As a freelancer, I have worked in different projects and handled both frontend and back-end Web App and Web site. I've:

- Single handedly developed the Customer landing page using ReactJs, CSS, and styled Component.
- Developed a public sales page, member registration and other core UI pages on the using Reacts and Tailwind.
- Code Refactoring Using JavaScript best practices and naming style guide, resulting in an organized, and clean architecture.

#### Frontend Developer @Start Innovation Hub

January 2019 - July 2019

As a Frontend Engineer at start Innovation hub, I Learned software engineering process improvement and practices. At start Innovation hub I:

- Developed and maintained the front-end functionality of the company website to enhance user experience.
- Built reusable code and libraries for future use.
- Made suggestions for improvement in technology and user interface.
